ROLE

As a Product Owner at EvidentIQ, you're a visionary leader shaping the future of one of our core products. You'll play a pivotal role in defining the product vision, roadmap, and backlog. Through close collaboration with stakeholders, developers, and designers, you'll ensure the product aligns with user needs and business goals.

Your expertise lies in understanding and translating user problems into actionable product requirements. You'll prioritize features, user stories, and backlog items based on market research, user feedback, and business objectives.

You're a master communicator, bridging the gap between technical teams and business stakeholders. You'll effectively articulate the product vision, manage expectations, and ensure everyone is aligned toward a common goal.

This role offers a unique opportunity to impact the success of our products directly and actively shape their evolution every day.

RESPONSIBILITIES

- Conduct user interviews and workshops to gather feedback and identify product requirements.
- Analyze user data and market research to identify trends and opportunities.
- Document product requirements clearly and concisely using appropriate tools (e.g., user stories, PRDs).
- Facilitate communication between stakeholders (e.g., customers, sales, engineering) regarding product needs.
- Prioritize and maintain a backlog of product features based on stakeholder input and business needs (with guidance from senior product ownership).
- Stay up to date on industry trends and best practices in product development.

WHAT WE EXPECT

- 3+ years experience as a Product Owner
- Requirements Gathering: Adept at conducting interviews, facilitating workshops, and analyzing user data to identify product needs.
- Stakeholder Management: Skilled at building relationships with various stakeholders (e.g., customers, sales, engineering) and understanding their priorities.
- Documentation: Ability to create clear, concise, and well-organized product requirement documents (PRDs) and user stories.
- Communication: Excellent written and verbal communication skills to effectively relay information between stakeholders in both German and English
- Organization: Strong organizational skills with the ability to manage multiple projects and deadlines.

COME AND JOIN OUR TEAM

WE OFFER

- Secure employment in a challenging professional environment in the pharmaceutical/medical devices sector
- Flexible working hours and a modern office
- Attractive compensation package and company pension scheme
- We have short decision-making processes and promote individual responsibility in a modern and flexible working environment
- Participation in a dedicated international team in a cooperative and friendly atmosphere
