

EVIDENTIQ

CLINICAL DATA SCIENCE GROUP

!!! WANTED !!!

Student Assistant Quality Management (f/m/x)

What on earth is EvidentIQ?

We are an international group of companies that offers a broad portfolio of **software for clinical research** and has customers from the pharmaceutical and research industry all over the world. Our headquarters in Germany are located in the immediate vicinity of the Viktualienmarkt.

What on earth is Quality Management?

QM ensures that an organization functions consistently well and is constantly improving. It has four main components: Quality Planning, Quality Assurance, Quality Control and Quality Improvement. This is achieved primarily through document control, process control and quality assurance techniques.

As a **Student Assistant** in the QM department, you will support the team with a wide range of tasks and gain an insight into the broad spectrum of operational process and document control and the importance of quality management in the context of a modern international business-to-business environment.

Your profile:

- Fluent English, spoken and written (knowledge of German is appreciated, but not mandatory)
- Advanced Microsoft Office skills (at least Word and Excel; interested in Pivot and VBA skills)
- Detail- and accuracy-oriented work style
- At least 12 hours availability per week

We offer:

- A time-flexible work structure
- Attractive payment based on modern business standards
- International multi-cultural work environment
- Office space in the heart of Munich
