We offer a good work-life balance with personal freedom and much more!

SENIOR
DEVELOPER
C#/.Net
(f/m/x)

career@evidentiq.com

ROLE

As a “Senior Developer”, you’re a key player in one of our main products. You’re a strong partner and mentor to the team’s other developers and our developer community across the EvidentIQ group.

You take ownership of the conception, implementation, documentation, and architecture of features, interfaces, and sub-systems. Your holistic view of the software development lifecycle allows you to work closely with our architects, developers, and business roles in a cross-functional agile team.

As a “Senior Developer” at EvidentIQ, you have a real impact on our products and actively drive and shape them daily.

RESPONSIBILITIES

- Development of electronic case conferences (e.g. tumor conferences) for use in clinics
- Work with stakeholders to gather and analyze requirements
- Design and implement software architectures and solutions
- Conduct code reviews and unit testing
- Deploy and maintain software applications
- Troubleshoot and debug software problems

WHAT WE EXPECT

- 5+ years experience in the development of modern C#/.Net Core applications
- Experience with WebForms, REST APIs
- Experience with DevOps practices
- Excellent problem-solving and analytical skills
- Excellent communication skills in both German and English

PREFERRED SKILLS

- Good knowledge of medical informatics or medical background knowledge (ideally in oncology)
- Experience with FHIR, DICOM, and HL7
- Experience in migrating .Net applications to .Net Core
- Experience with containerization technologies such as Docker and Kubernetes

SOFTWARE DEVELOPMENT

WE OFFER

- Secure employment in a challenging professional environment in the pharmaceutical/medical devices sector
- Flexible working hours and a modern office
- Attractive compensation package and company pension scheme
- We have short decision-making processes and promote individual responsibility in a modern and flexible working environment
- Participation in a dedicated international team in a cooperative and friendly atmosphere
- Good work-life balance with personal freedom
